

TOK2BUSINESS GUIDE

Login on www.tokonda.com

On a desktop press the icon TOK2me:

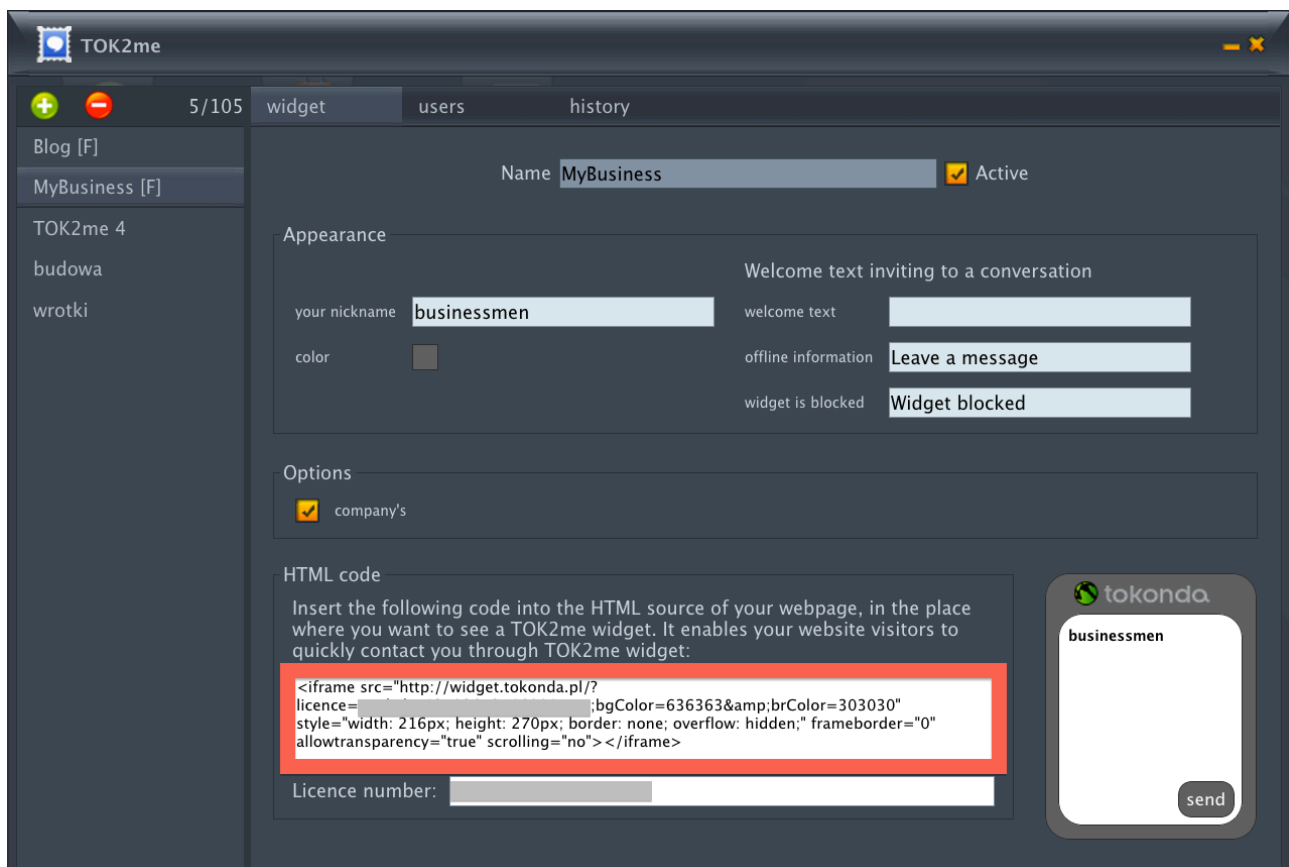

Choose the checkbox 'company's'

These feature allows to use the widget by more then one operator (employee) .

Next please copy HTML code (white background):

A screenshot of the TOK2me configuration interface. The window title is "TOK2me". On the left is a sidebar with a list of widgets: "Blog [F]", "MyBusiness [F]", "TOK2me 4", "budowa", and "wrotki". The main area shows the configuration for "MyBusiness". It has a "Name" field with "MyBusiness" and an "Active" checkbox checked. Under "Appearance", there are fields for "your nickname" (businessmen), "color" (a grey square), "welcome text" (empty), "offline information" (Leave a message), and "widget is blocked" (Widget blocked). Under "Options", the "company's" checkbox is checked. The "HTML code" section contains instructions and a code block highlighted in red:

```
<iframe src="http://widget.tokonda.pl/?  
licence=;bgColor=636363&brColor=303030"  
style="width: 216px; height: 270px; border: none; overflow: hidden;" frameborder="0"  
allowtransparency="true" scrolling="no"></iframe>
```

 Below the code is a "Licence number" field. On the right, a preview of the widget shows the "tokonda" logo, the nickname "businessmen", and a "send" button.

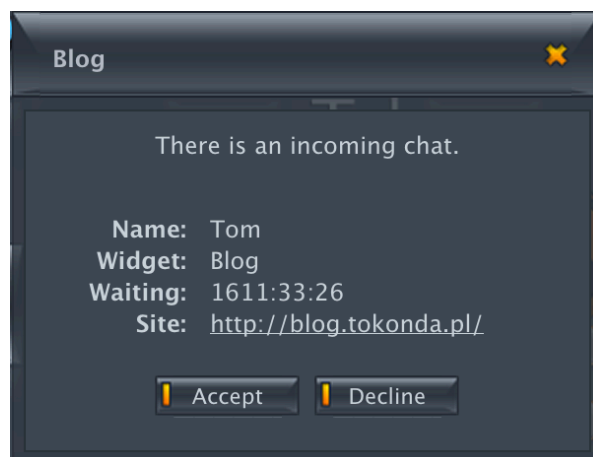

insert it to web page HTML source in a place where you wish it should be found.

Condition: You must have access to web page HTML code!

On your web site it look's like below:

On a consultant's desktop appears message window:

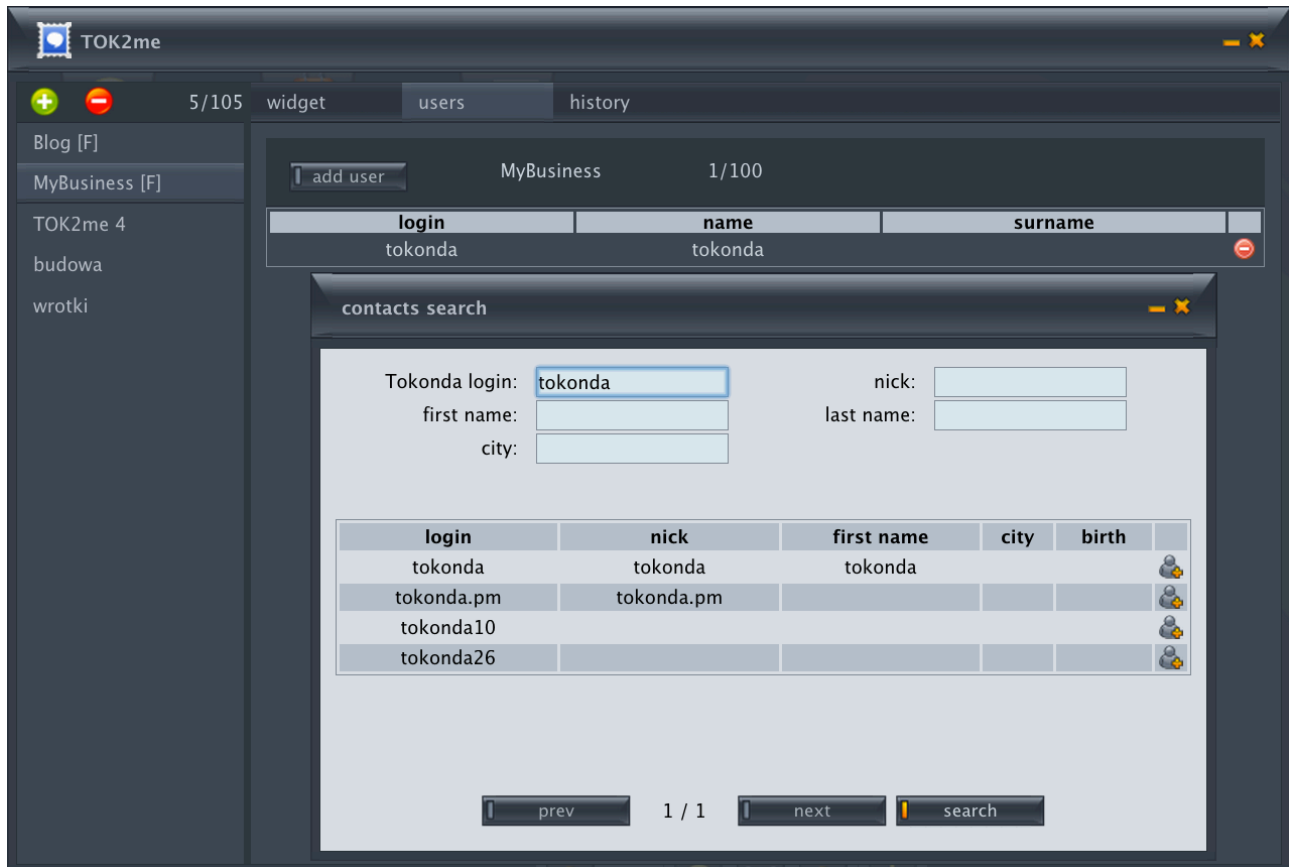

To start conversation please click 'Accept' button;

The application can be operated by many employees, but each of them should be assign to TOK2business.

How to do it?

Please open tools window (click TOK2me widget) and go to 'users', then add user:

There will create users list – it can be extended or reduced.

Now each of assigned employee will receive a message, person who answers first will continue conversation, other consultants won't see this message.

When a user is log out the tokonda.com then all messages are forwarded to other on-line operators.

Now everyone who visits your company web site can contact you in a simply way!
